

Welcome to the Peaches Room!

The preschool years are a time of wonder and excitement. At this age the child is becoming more independent and learning many new skills on his/her own. Our job as educators is to help foster that independence with love and nurturing, and to be readily available with new learning opportunities and skills.

We provide daily one-on-one activities which help ensure that each child grows and learn at his/her own pace. We also encourage the children to work in small groups to foster personal and social skills.

Our classroom provides many hands-on activities to help develop fine and gross motor skills, and to help develop pre-reading and reading skills.

At this age the children are able to understand and grasp more concepts in math, science, reading and writing. We learn about our world and environment around us by practicing these concepts.

Communication is very important we understand that you may have questions about your child's day on other concerns. Please feel free to talk to us at anytime!!

For your reference, we have a parent bulletin board with important information. We also have a white board in the classroom which details our weekly themes and our daily planned activities and crafts.
